

FT-8420 Congregational Polity – Spring 2010

Rev. Mark W. Harris

Course Description

This is a course in the history and development of Congregational Polity in the Unitarian Universalist tradition. How did Congregational Polity evolve and what were the differences in the Unitarian and Universalist approaches to governance? How have we handled issues of centralized authority and bureaucracy? We'll look at how religious communities makes decisions, support their leaders and define ministry. With ministry we will ask about power, gender and ethics, the call, and the meaning and context for worship and rites of passage.
